

SUP4PCL PROJECT - PCL Monitoring Survey

This survey is intended to be used at various points across the course of our work as an Egyptian-European team to monitor and assess our development as a community of learners. We will enhance our findings by undertaking focus group interviews at different points in time to clarify your perspectives on our moving forward. So, each time you are asked to complete this survey it is 'at this point in time' rather than what occurred in the past or to reflect hopes for the future. What is now is the crucial focus.
