Dear Friends and colleagues

I hope you all enjoyed the winter break and are now ready for a dynamic restart of work. Having sent you the news around the extension I would like you to know that this will be followed up with signing an amendment to the original sub-agreements. We will be sending individual emails to each institution in the next couple of weeks. Now that we have more time we would like to go back to the original commitments declared in the kick off meeting report namely the need for our European counterparts along with AUC to support the various Egyptian Faculties of Education on the following:

- Mentorship and a list of performance indicators to describe effective mentors.
- Guidelines for university based professional schools

Finally we would like to inform you that the end of project conference is now anticipated to take place in March 2020. Below is a doodle link for you to express preferences for exact dates. Please respond by Thursday 28th of January. We hope to have three days with a first day devoted to school teachers' research and reflections, a second day on the presentation of our case studies while possibly including best global practices and finally a third day for media, policy and the way forward.
