Dear Friends and Colleagues

I do hope you are all keeping safe and sane in those very trying times. We are all on telework mode and confined to our homes but still working very hard to teach, supervise thesis, continue with our research and bringing our SUP4PCL project to closure. We are working hard on the final report and plan to send you a draft early in May so you can quickly review and send your comments and/or approval. We are still missing some pieces that could dramatically strengthen the report so please bear with us and send those as soon as possible:

1. We need all partners to send us information concerning the number of graduate students (MA and Ph.D) who benefitted from the project whether through studies or work to support the activities.
2. Any documents that can officially prove a change in curricula, syllabus and or governance provisions as a result of the project(ex. modules, syllabus and new modes of decision making, etc).
3. Any documents that can provide evidence of agreements with society, private sector, other stakeholders (this will include any agreements the Egyptian Universities had with directorates and MOEs via letters or any other form)
4. Any evidence that the activities, ideas, workshops, technology etc have been institutionalized and mainstreamed (this is especially true of Egyptian universities notably Ain Shams and the trainings and work done by Mahmoud Haggag ex. Using our ideas and materials in the training of other directorates).

These are very important pieces that can truly strengthen our results and report.

Warmest regards from a sieged universe (this too shall pass)

Malak
