Dear Friends and Colleagues

Hope you are all keeping safe and healthy. It gives me pleasure to inform you that the technical and financial reports as well as the results were all uploaded on the system on time. We in fact not only received acknowledgment but also a list of accompanying sample documents required for the review. (attached in excel sheet). We will be working to provide the supporting documents on time. Should we need your assistance we will inform you. Once they receive the required documents as a first sample they will begin the formal review process which should normally take around 6 weeks or more and provide us with feedback.

Meanwhile we continue to feed our website with more news and possibly publications when these occur. Please continue to visit and share the website with your networks. Do also send us news of any related events and/or publications you think should be uploaded.

We are in the process of planning for a small series of webinars in the next academic year. These webinars should replace specific sessions of the conference we had so carefully planned. We will keep you of course posted on the latest developments and will count on all the partners to be actively engaged. We are in fact reaching out to networks beyond our own consortium such as TEMPUS colleagues and others we believe would be interested to participate. Once the program is confirmed we will count on you to suggest larger networks for dissemination.

Hoping you managed to enjoy some holidays despite the current challenges

Keep well

Warm regards  
Malak
